

MARCONI BEACH SOUND

Beach Party

Beach Party

This CD was recorded live on a freezing cold day in December 2010 just five months after Marconi Beach Sound was formed. All the band members are fans of instrumental music and played together, initially on an informal basis, at the South Wales Shadows Club. The immediate rapport we found was translated into a plan to record a set of surf instrumentals before Christmas. The CD you see before you is the culmination of this plan.

Marconi Beach Sound

Why **Marconi Beach Sound**? The band is based near Lavernock Point where Marconi first transmitted sound waves across the sea. Hence the name and the logo of sea waves merging into sound waves.
